

E-learning Content Creation

Digital Learning

E-learning has gained enormous demand in the current pandemic situations. In this era when home has become offices, classrooms are also replaced by virtual learning. This has lots of benefit not just to employees but also the companies.

CIEL has been a part of creating relevant digital content for the LMS of many corporates over the last few years and we have noted that E-Learning helps to educate the geographically diverse workforce with a standardised module and it also works out to be cost effective.

E-learning benefits of the organization in following ways:

**STEP
01**

Interactive and
engaging learning
Content

**STEP
02**

Self-paced learning

**STEP
03**

Measurable progress

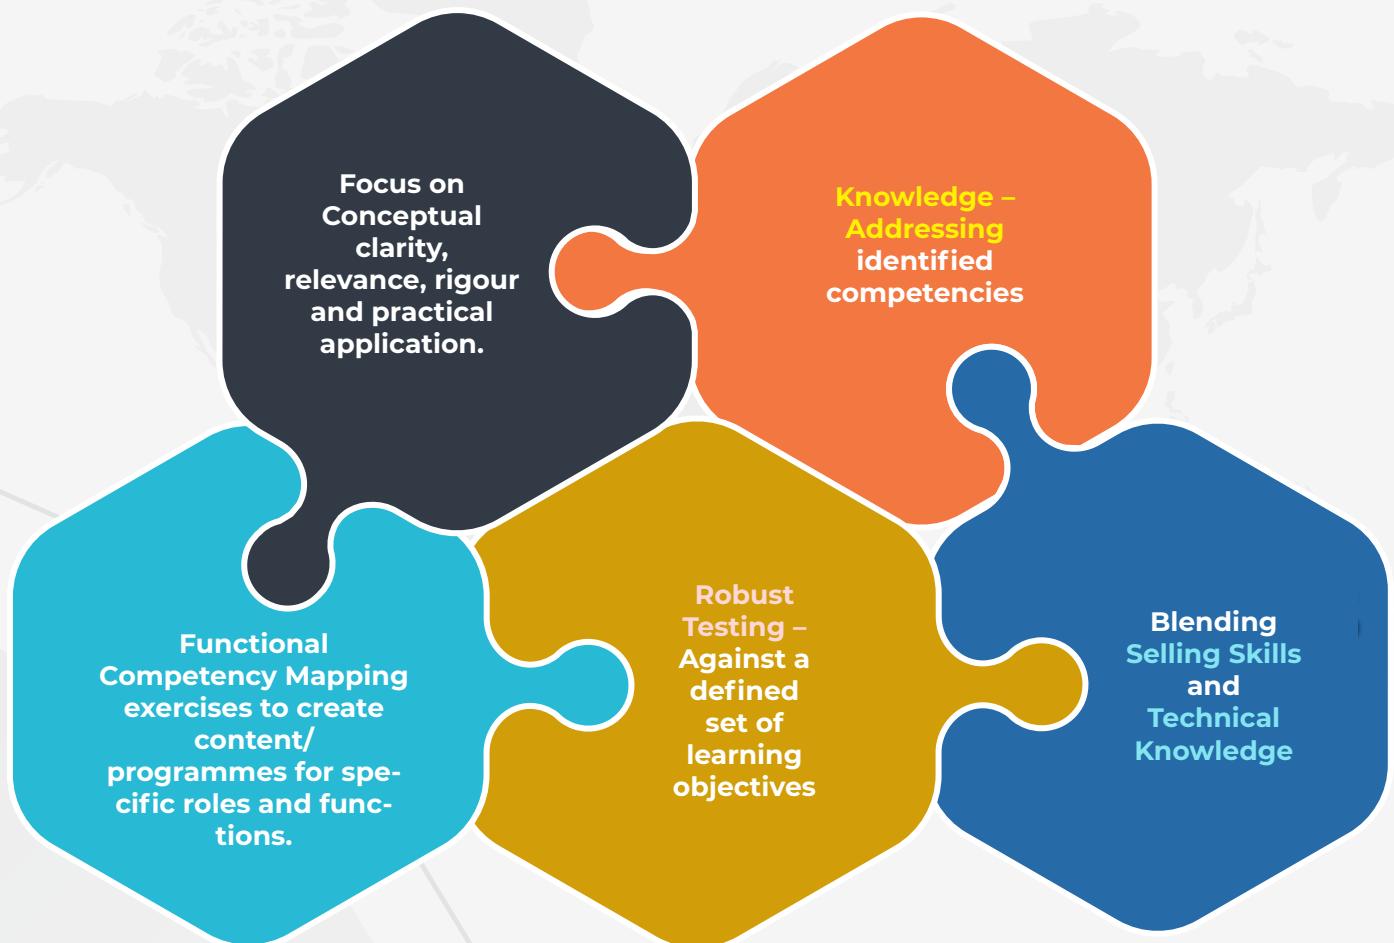

**STEP
04**

Customized and
agile learning plan

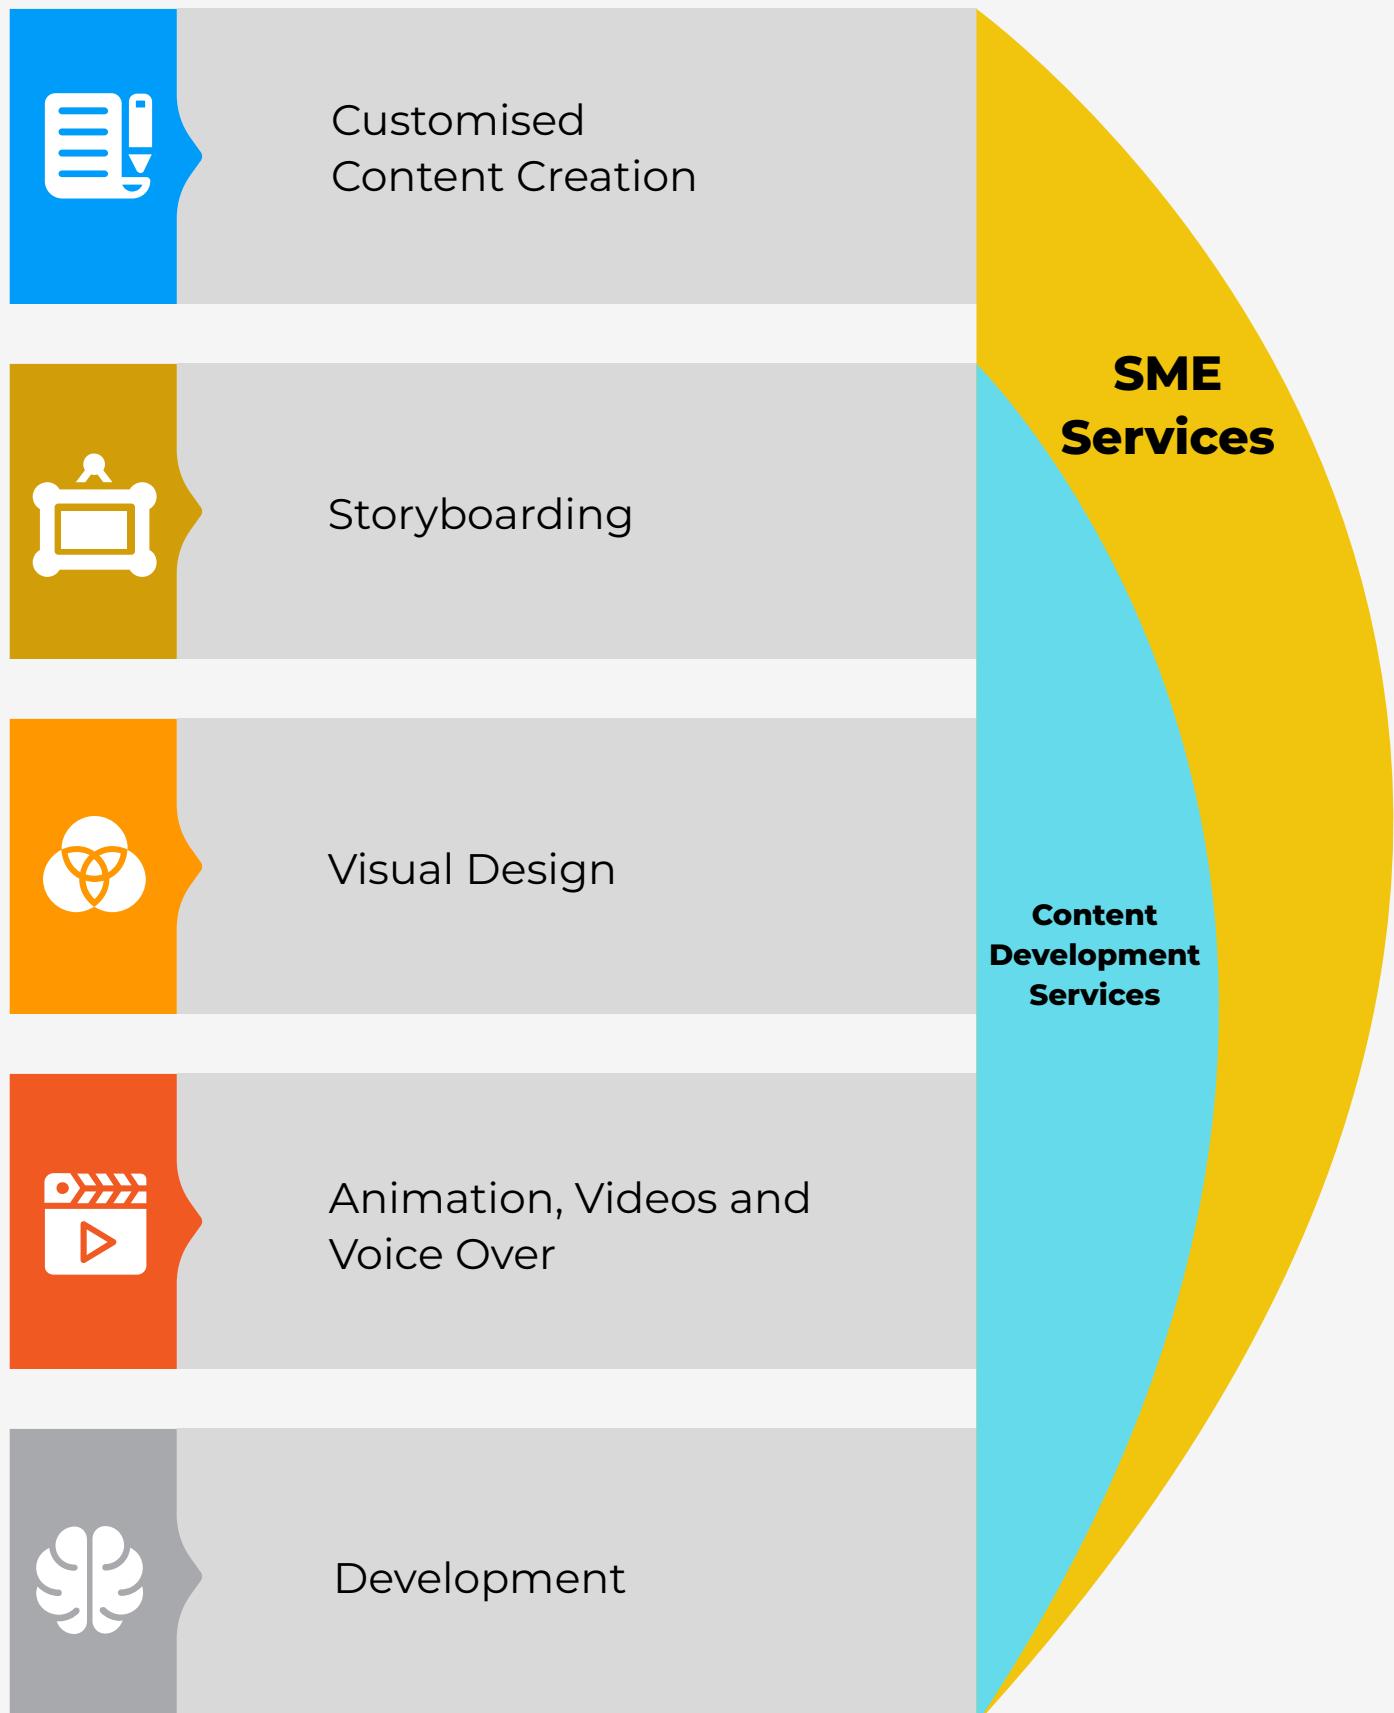

Content Ethos @CIEL

End to end delivery

CIEL's content curation services seek to power Client LMS with self-paced learning SCORM content across multiple levels of interactivity.

CIEL works closely with the clients to create content using its content ethos and subject matter expertise or could also work with existing client content to develop into self-paced e-learning modules.

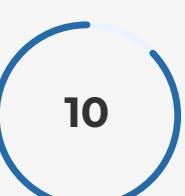

At CIEL, we work extensively and closely with **Working Professionals** from the **Industry** with specific **Subject Area Expertise** across various **BFSI** topics.

CIEL Credentials

CIEL has created around 100+ long duration e-courses, 120+ micro learning modules and 650+ videos/podcasts across clients and subject areas:

- | | | | |
|---|---|---|--|
| 
1 | Wealth management and investment planning | 
2 | Broking |
| 
3 | Asset classes and investment products | 
2 | Lending and banking products |
| 
5 | Taxation | 
6 | Macro economics |
| 
7 | Estate planning | 
8 | Insurance |
| 
9 | Accountancy and financial management | 
10 | Sales Effectiveness and Behavioural skills |

Highlights of CIEL Courses

Clearly defined learning objectives

**Audio/visual Content created
by practitioners**

**Interspersed quizzes
for self-evaluation**

**Case studies, role plays, caselets,
business scenarios**

**Robust diagnostic and Final
certification tests**

Personalised learning

SCORM-based Learning Projects

CIEL's SCORM based learning modules seek to boost and retain the concepts among the learner, while enabling appropriate tracking and testing, aligned to your LMS and SCORM guidelines.

 **Micro Learning Capsules:** Usually 3 to 5 minute content. Explains a single concept, with a combination of user interaction, audio and visuals, thereby enabling superior concept retention and byte-sized learning. Long Format E-courses: Interactive content, seat time of 30-60 min focused on a specific topic with interspersed quizzes and knowledge checks.

 **Long Format E-courses:** Interactive content, seat time of 30-60 min focused on a specific topic with interspersed quizzes and knowledge checks.

 **Talking Head Videos with Experts:** Experts from the industry share real-life their insight and expertise on various subject areas based on their experiences.

 **Simulations:** A real environment (through simulations and stories) to teach complex tasks or processes that are difficult to communicate with just words on a screen.

 **Gamification:** Use the game format to administer quizzes and assessments in order to foster learner engagement and retain learner enthusiasm.

E-Learning Description

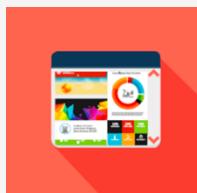

Classic

1. Visually appealing with lightly interactive screens.
2. Learner acts as receiver of information.
3. Used for teaching simple concepts.
4. 75-80% semi static screen with audio and 15% - 20% interactivity, photographs or stock images, with assessment.

Enhanced

1. Rich visuals and engaging interactive screens.
2. Learner takes control making responses to instructional cues.
3. Used for teaching more complex concepts.
4. 60% animations + interactivity, remaining screens semi static, photographs or line drawings or simple 2d images, with audio and assessment and 40% passive screens.

Premium

1. Immersive visuals and highly customised interactive screens.
2. Learner is immersed in the content making a variety of responses to instructional cues.
3. Used for simulating real life experiences. 20% passive screens and 75% - 80% animations, interactivity, simulations, audio, illustrations or rich images, assessment.

Gamified

1. 90% animations, Gamification, interactivity, simulations, audio, illustrations or rich images, assessment, branching, activities.

Annual Maintenance

CIEL will undertake annual updation of data, regulatory updates to ensure that the content stays relevant and useful over a longer period of time for your learners.
